

ITEMS FOR YOUR INITIAL CONSULTATION WITH DR. SHAH

During your initial consultation, Dr. Shah will review your entire medical history and discuss all prostate cancer treatment options, including robotic surgery. To provide you with the best care, please ensure the following items are available. Whenever possible, please hand carry these records to your appointment.

- 1)** Name, address, and phone number of your primary care physician and referring urologist
- 2)** Office notes from your prostate biopsy, including prostate ultrasound volume (size)
- 3)** Pathology reports from your prostate biopsy (we will request the actual slides for review at UNM to confirm the diagnosis and Gleason score)
- 4)** Actual films/images AND reports from any CT scans, Bone Scans, or MRIs (you can request the x-ray images be put on a CD for you to bring to your appointment)
- 5)** ALL prior PSA values (even PSAs that were “normal”, for as many years back as you are able to obtain)
- 6)** List of current medications and dosages

Questions? Please call Patricia (Trish) Seeber, R.N. at 505-925-0246
